

Do your utility and telecommunication costs seem high?

MANY COMPANIES ARE PAYING MORE THAN THEY SHOULD.

Utility Reduction Analysts (URA) can help you lower your bills without compromising quality of service. URA has been in business for over 20 years and is an established professional utility cost reduction company providing analysis and savings for electricity, gas, water, sewer, telecommunications, medical waste, recycling and trash. We serve companies around the United States in a variety of industries.

A few examples of significant savings our clients received because of our involvement:

- Manufacturer receives a \$104,000 telecommunications refund.
- Automotive supplier receives a \$101,000 refund.
- College saves \$200,000+ annually in telecommunication and water costs.
- Grocery store saves over \$88,000 annually.
- Manufacturer receives a \$32,000 refund two weeks after URA starts their project.
